Special Chancellor's Awards

Three UCSF staff members — A. Freeman Bradley, Ruth Prael and Wanda Jones — were presented by Chancellor Sooy with a 1976 Chancellor's Award for Public Service on June 3. The Public Service Awards are given annually to staff, students, and faculty who have made outstanding contributions to the San Francisco community in such urban activities as education, equal opportunity, health service, and neighborhood improvement. Psychiatrist Price Cobbs, M.D., was guest speaker. Two award winners received a certificate and check for $500, and the third, the "Thomas M. Burbridge Public Service Award," a certificate and a check for $600. They are:

Ms. Wanda James, Clinical Social Worker, who has devoted many hours of her own time helping transplant and dialysis patients to develop a self-help organization;

Ms. Ruth Prael, Staff Research Associate, Langley Porter Neuropsychiatric Institute, who has been active in neighborhood improvement efforts, was Chairperson of the Community Advisory Board for Bayview Mental Health Center, and established a new, decentralized mental health services site in the community.

Mr. A. Freeman Bradley, Specialist in the CVRI and in the Anesthesia Research Laboratory, the winner of the Burbridge Award, has developed blood-gas electrodes now in use in the Moffitt Hospital operating rooms and Intensive Care Unit. He is an advocate of equal education and employment opportunity and is considered by many to be the unofficial campus ombudsman. The Black Caucus at UCSF contributes to the Burbridge Award, which honors the work of the late Dr. Burbridge during the mid-sixties to open jobs for minority group members in previously non-integrated fields. Dr. Burbridge was a Professor of Pharmacology in the School of Medicine.
